NewsPlus+

Introduction

Introducing NewsPlus+ : Your
Personal News Experience
An android app made with Jetpack
compose.

▶ The main activity of our app

HOME COMPONENT

Seamlessly curated and updated throughout the day, it presents a scrollable list of today's most relevant news stories.

With just a click, users can dive into a particular news, staying informed and up-to-date on current events.

API used is **NewsAPI**.

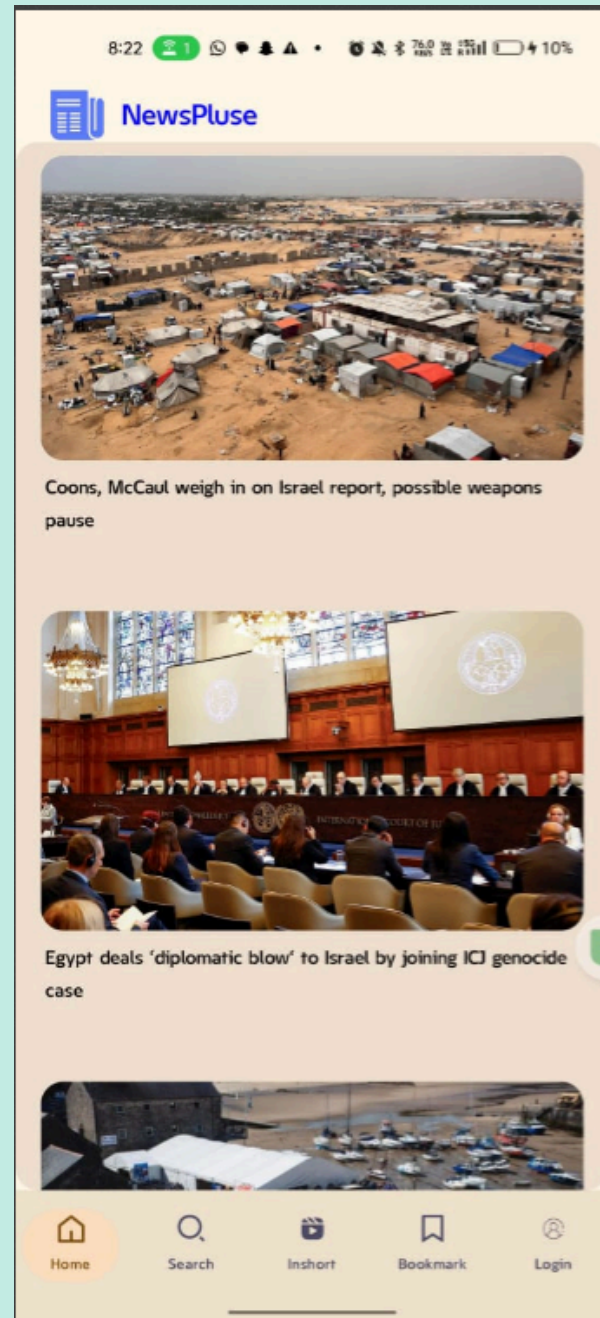

App Highlights

APP DESCRIPTION

- Fetched the data from the API parsed it and displayed.
 - Open in Browser to Read full browser.
 - An intuitive and user-friendly interface for the app.
 - Allows users to search for news articles based on keywords.
 - Save news for offline in bookmarks.
 - Easy to user lower navbar.
